

For more than 100 years, Fairview has been improving the health of the communities we serve. We have grown into one of Minnesota's largest nonprofit organizations. Today, we are more than 20,000 employees providing exceptional care and leading health care innovations that will sustain us into the future. We partner with the University of Minnesota, one of the nation's top research and teaching facilities, to provide breakthrough medicine to our patients.

We are hospitals, clinics, home care, hospice, rehabilitation, pharmacy services and much more. To the communities we serve, we are known as a healthcare leader, community partner and trusted advocate. As an employer, we nurture the teamwork, passion and excellence needed to deliver our promise of exceptional care to our patients.
